

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

December 1, 2021

Dear King Members, Friends, and Family:

Yesterday, Wisconsin recorded its highest single-day COVID-19 case total in 2021 and cases of the virus continue to climb.

Since we updated you yesterday, we have had 2 members and 11 employees test positive for COVID-19. Currently, we have 18 cases of COVID-19 on campus (3 members, 15 employees).

As a reminder, when members leave campus to be with family or if visitors are planning to come to campus, we must all exercise caution in order to help keep the members and staff on campus safe and healthy. For members who choose to leave campus, wearing masks, avoiding crowds, and observing social distancing are imperative. This is a time when many families plan visits and we know these visits are very important, but we must all be extra vigilant.

Finally, the best way we can help prevent the spread of the virus is by getting vaccinated. Data has shown that COVID-19 case rates among long term care facility residents are lower in facilities with higher vaccination coverage. If you haven't already and are able, please get vaccinated. Boosters are now available to everyone 18 years old or older.

Thank you for your commitment to our health and safety.

Sincerely,

Tammy Servatius, Commandant
